Circling Above in Time Before Time

Immortal

In time when dragons sprang from the Earth
I was at one with a blackening moon lit
And from a borg to the open sky
I saw a raven circleBorn out of thorns to the surface world
With mezmerising strenghtTo fly among the blackest rain
And soar into the deepest gorgeFor this I would battle kingly palaces
For they learn to be false
And outshine it all that I once...knewCircling above the open sky
To fly among the blackest rain
In the underdark
To soar into the deepest gorgeIn time when dragons sprang from the Earth
I was at one with a blackening moon litFrom a borg to the open sky
I saw a raven circleCircling...Circling above in time before time
