

# Little Dreams

Ellie Goulding

If a plane crashed into my room  
I wouldn't even flinch  
I couldn't try to move  
My mind is on you  
My mind is on you  
If the streetlight smashed above me  
I wouldn't move an inch  
Turn the glass into stars  
And your face is the moon  
And the night turns to you  
'Cause my mind is on you  
You've got me caught in a place  
Panic for a minute  
Got my brain in a daze  
I wish you weren't in it  
There are so many ways  
To lose your attention  
You can break everything but so what?  
I can take anything  
I can take anything  
I can take anything  
If electric charges shock me  
I'd smile and fold my arms  
I'd feel nothing new  
Because my mind is over you  
Oh, my mind is on you, oh  
And if the floor gave way to my shoes  
I wouldn't try to fly  
I can't explain what it would feel  
I just feel you  
How it feel? I just feel you  
You've get me caught in a place  
Panic for a minute  
Got my brain in a daze  
I wish you weren't in it  
There are so many ways  
To lose your attention  
You can break everything  
But so what?

I can take anything  
You're the heat in my bones  
But you break me with stones  
You're the heat in my bones  
But you break me with stones  
If a plane crashed into my room  
I wouldn't even flinch  
I couldn't try to move  
My mind is always on you  
My mind is always on you  
Caught in a place  
Panic for a minute  
Got my brain in a daze  
I wish you weren't in it  
There are so many ways  
To lose your attention  
You can break everything  
But so what?  
Even when I'm caught in a place  
Panic for a minute  
Got my brain in a daze  
I wish you weren't in it  
There are so many ways  
To lose your attention  
You can break everything  
But so what?  
I can take anything
