How Long

K-ci & Jojo

I thought I left, long recall, I wanted to ask you
You used to hug and there was no feeling behind that
Do you remember back in the days
We use to laugh and play all night long?
And if you do, tell me, how long, how long?
How long do you need time away?
Hopefully not long you'll stay away
And I pray that everything's okay
Tell me, I wanna know, how long
How long will you, you'll be away?
Now it hurts me so thinking about her
At night my bed is cold and lonely without her
Can't explain what Heaven knows, I'm crazy about her
If she come back she don't know, I said "She really, really don't know"
So please my lady, just how long?
How long do you need time away?
Hopefully not long you'll stay away
And I pray that everything's okay
Tell me, I wanna know, how long
How long will you, you'll be away?
How long do you need time away?
Hopefully not long you'll stay away
And I pray that everything's okay
Tell me, I wanna know, how long
How long will you, you'll be away?
I miss you so, miss you so
I miss you so, miss you so
I miss you so, miss you so
I miss you so
Coming back someday
Coming back someday
Coming back someday
Coming back oneday
Coming back someday
Coming back someday
Coming back someday
Coming back oneday
Coming back someday
Coming back someday

Coming back someday
Coming back oneday
How long do you need time away?
Hopefully not long you'll stay away
And I pray that everything's okay
Tell me, I wanna know, how long
How long will you, you'll be away?
Tell me, I wanna know, how long
How long will you, you'll be away?
