

You Are the Music

M. Craft

Radio, stereo, TV shows
Won't take my mind far from the things I know
Troubled days are on their way, there's hell to pay
But I know I'm gonna be okay 'Cause baby, you are the music, the music in me
And when the silence comes, you'll be all that I need
You are the vision, the vision I see
And when the darkness falls, you'll be all that I need
Magazines, movie screens, faded jeans
Won't take my mind far from the things I've seen
A future bright, a world alight, an end in sight
But I know I'm gonna be alright 'Cause baby, you are the music, the music in me
And when the silence comes, you'll be all that I need
You are the vision, the vision I see
And when the darkness falls, you'll be all that I need
