I Wanna Touch You

Colby O'donis

Ohhh!
Yea-yeah!
A RedOne!
Colby O!
Cherry Cherry Boom Boom!
Yeah-yeah!
If it's game or money
I can steady run it
I can set you up honey
Till you turn, turn, turn, turn
Just say you're solid
That you're boyfriend's got it
Say I'll stay up on it
'Cause it burns, burns, burns, burns
I wanna touch you
But I'm trying keep control of my hands
I wanna touch you
But you're probably making love to your man
I wanna touch you
But I got to make myself understand
That I can't
But I can't understand
That I can't
I wanna touch you
But I'm trying keep control of my hands
I wanna touch you
But you're probably making love to your man
I wanna touch you
But I got to make myself understand
That I can't
But I can't understand
That I can't
I wanna touch you
But I'm trying keep control of my hands
I wanna touch you
But you're probably making love to your man
I wanna touch you
But I got to make myself understand
That I can't

But I can't understand
That I can't
And the more you saying
That you won't I stay in
Trying to get you to straying
So you turn, turn, turn, turn
You don't ever holler
'Cause you do straight loyal
Make my temperature boil
Till it burns, burns, burns, burns
I wanna touch you
But I'm trying keep control of my hands
I wanna touch you
But you're probably making love to your man
I wanna touch you
But I got to make myself understand
That I can't
But I can't understand
That I can't

I wanna touch you
But I'm trying keep control of my hands
I wanna touch you
But you're probably making love to your man
I wanna touch you
But I got to make myself understand
That I can't
But I can't understand
That I can't
I wanna touch you
But I'm trying keep control of my hands
I wanna touch you
But you're probably making love to your man
I wanna touch you
But I got to make myself understand
That I can't
But I can't understand
That I can't
If shawty's worth it
Then she's somebody else's 'cause they
They usually take it if they shine like you do
If shawty's interesting, yeah
Hope I can infiltrate
But it's hard to break them
When they shine like you do

I wanna touch you
But I'm trying keep control of my hands
I wanna touch you
But you're probably making love to your man
I wanna touch you
But I got to make myself understand
That I can't
But I can't understand
That I can't
I wanna touch you
But I'm trying keep control of my hands
I wanna touch you
But you're probably making love to your man
I wanna touch you
But I got to make myself understand
That I can't
But I can't understand
That I can't
I wanna touch you
But I'm trying keep control of my hands
I wanna touch you
But you're probably making love to your man
I wanna touch you
But I got to make myself understand
That I can't
But I can't understand
That I can't
I wanna touch you
But I'm trying keep control of my hands
I wanna touch you
But you're probably making love to your man
I wanna touch you
But I got to make myself understand
That I can't
But I can't understand
That I can't
