

# Evil

## UFO

Heaven knows that you're an evil child  
Drive me crazy, you drive me wild  
Get home from work I don't feel all right  
Go in your bedroom you just want to fight Movin' in, you're movin' out, baby you move my mind about  
Don't give me no reasons, don't give me no lies  
Come to take you home from school you've broken all the rules All I need is a bit of your love  
All I want is a bit of your love  
All I want is a part of you Heaven knows that you're an evil child  
Drive me crazy, you drive me wild  
Get home from work I don't feel all right  
Go in your bedroom you just wanna fight Movin' in, you're movin' out, baby you move my mind about  
Don't give me no reasons, don't give me no lies  
Come to take you home from school you've broken all the rules All I need is a bit of your love  
All I want is to hold you tight  
All I need is a part of you
