This is Gravity

The Strange Familiar

Please don't go
Don't go away
Cause you and I
We're meant to be

It's more than love to me
Oh, this is gravity

Don't dent what's in your soul
When you left, you left a hole in my heart
There's no other choice I'd make
You're a risk I have to take
My mind's made up

Please don't go
Don't go and change
Don't ever change a thing for me
Please don't go
Don't go away
Cause you and I were meant to be

I can't fight the way I feel
Surrendering, let fate take the wheel
Can't you see I'm not afraid?
Cause I know what it costs to have already lost you

It's more than love to me
A wave upon the sea
Oh, this is gravity

Please don't go
Cause you and I were meant to be
Please don't go
Cause you and I were meant to be
It's more than love to me
Oh, this is gravity
