

# I Don't Know

Brad

No one knows how long we're gonna be here  
No one knows how long until we die  
No one knows but maybe that's familiar  
Come on now and just give it a try I don't know where you've come from  
I don't know where you've been  
I don't know who to believe now  
I don't know who's my friend I don't know where you've come from  
I don't know where you've been  
I don't know who to believe now  
I don't know who's my friend When we hear the thunder and the lightning  
When we hear the falling of the trees  
When we see that we have all been foolish  
We should have listened closer and believed Never mind what you've heard  
Never mind what you've heard  
'Cause it's all, it's all gone now  
Hey, hey I don't know where you've come from  
I don't know where you've been  
I don't know who to believe now  
I don't know who's my friend I don't know where you've come from  
I don't know where you've been  
I don't know who to believe now  
I don't know who's my friend I don't know where you've come from  
I don't know where you've been  
I don't know who to believe now  
I don't know who's my friend I don't know where you've come from  
I don't know where you've been  
I don't know who to believe now  
I don't know who's my friend Who's my friend  
Who's my friend  
Who's my friend
