

# Moralistic Suffering

## Sinister

Restricted manners, blinded by the truth  
Symbol of salvation, the god of emptiness  
Acts of desire, a shallow grave called life  
Rebels of the wicked prepared to face the lieMoralistic suffering  
Moralistic afflicted by the sins of warMoralistic suffering, i am the written pain  
Moralistic suffering, despise thy soulFuture wars, collected by the past  
A frenzied rape and cold blooded murder  
Substance of terror, killed by acceptance  
Rebels of the wicked prepared to face the lieMoralistic suffering, i search the wings of death  
Moralistic suffering, i am the risen painPrepare to face and lieRestricted manners, blinded by the truth  
Symbol of salvation, the god of emptiness  
Acts of desire, a shallow grave called life  
Rebels of the wicked prepared to face the lieMoralistic suffering  
Moralistic suffering  
Afflicted by the sins of war
