

Make It Right (F.F.S.)

Anathema

I know that I want you
I know that I need you
But I can't pretend that
This'll make it right You whisper your name
But I can't hear you
Don't leave me behind
Lend me your hand I can feel them
I think they're closing in
Don't leave me behind
Lend me your hand Let me feel you
By my side
Be where I can hear you
I long to feel
