

If Forever

Novembers Doom

On the days you long for me
And the cold nights of grey(Hear me)I ask you to forgive me
And bow my head in shame(Feel me)I promise, I will never leave you
I will not go on without you
If the light calls upon me
I will remain, waiting for you(Live for me)I've never felt so empty before
I never cared more for us(Pray for me)I promise, I will never leave you
I will not go on without you
If the light calls upon me
I will remain, waiting for youSomewhere along the days of my life
I found my faith in you(Cry for me)
