## aqua

Don't touch me Don't talk to me about it Don't touch me Don't talk to me ever again I don't feel anything All sensation is closed to me I saw you put the needle in I can still see everything Don't touch me Don't talk to me about it Don't touch me Don't talk to me ever again Take me to a quiet place Throw me in the water Watch the bubbles surface as I'm Slowly sinking under Don't touch me Don't talk to me about it (Don't touch me) Don't touch me Don't talk to me ever again Don't touch me Don't talk to me about it Don't touch me Don't talk to me ever again Don't touch me Don't talk to me about it (Don't touch me) Don't touch me Don't talk to me ever again Don't touch me Don't talk to me about it Don't touch me Don't talk to me ever again Don't touch me Don't talk to me about it (Hey don't talk to me) Don't touch me
