

# Lost On Me

## Abby Ahmad

Repeat performance - cruel de ja vu  
You play the bad guy, and I'll play the fool  
How could I slip and make the same mistake twice  
When did I learn to forgo my own good advice

### CHORUS

I cannot stand here awaiting the day  
That your actions match the words that you say  
My heart's gone bankrupt selling wisdom for free  
Every lesson learned is another one lost on me

I am a danger to myself  
get all mangled, tangled, tied up in the past  
be true unto thy self, but I can't manage  
I'm damaged, a victim to typecast

Oh, applause, applause, three cheers for the lost cause  
Fragile, flawed shining center stage  
But the pain makes you grow - hard line to toe  
Everything's changing now see how I've changed

### CHORUS

I cannot stand here awaiting the day  
Finally decide to get out of your own way  
I sacrificed my want appeasing your need  
Every lesson learned is another one lost on me

### BRIDGE

Things that you tried to hide  
I chose to ignore  
Guess we're both better after this  
Than we gave ourselves credit for  
But now that I can finally see  
All those things you held inside  
Despite what you have meant to me  
I cannot just let this slide

### CHORUS

See, I cannot stand here and pretend we're okay  
Not like you've festered to your fact anyway

I tried to play teacher - never could be  
Every lesson learned is another one lost on me  
Every lesson learned another one's lost on me  
Every every lesson learned another one's lost on me, on me  
Oh but man, why'd you have to go and get lost on me
