We Must Be Thinking Alike

Pam Tillis

So many nights we didn't fight
But never talked much
We just lost touchI think we knew our dream
Come true was slowly dying
No denyingNow comes the time
We must decide to go or stay
To get it back somehow
Or throw it all awayWe must be thinking alike
You never held me so tight
We must be finally doing something rightI'm not about to give in
This is a fight we can win
And after all this time
We must be thinking alikeLet's just stay home
I'll get a pizza and a movie
We both wanna seeAnd later on who knows
What we'll find to agree on
It's been so longDim down the lights
Turn off the phone and the TV
I can tell the way you're smiling
Back at me thatWe must be thinking alike
You never held me so tight
We must be finally doing something rightI'm not about to give in
This is a fight we can win
And after all this time
We must be thinking alikeWe must be thinking alike
Holding each other so tight
We must be finally doing something rightI'm not about to give in
This is a fight we can win
And after all this time
We must be thinking alike
