Heterosexual

Anyone for Tennis?

girls are hot, they turn me on,
their beautiful to me
Iâ€™ll just say this I love their lady bits,
especially when those bits are touching me

the problem is,
that I clearly am a guy
which means there is a penis
on me all the time

Iâ€™m just trying to make sense of it all
coz I am heterosexual

so heterosexual
(we like the ladies)

when I get dressed my private bits
are out there on the loose
if there is a full length mirror
itâ€™s like two naked dudes

I catch a glimpse of me penis
before bed every night
when I wake up its also up
and looking me directly in the eye

Iâ€™ve seen girls bits
but not as frequently at all
my eyes spend much more time
looking at dick and balls

Iâ€™m just trying to make sense of it all
coz I am heterosexual

when I have to urinate, I have to delegate
my manly fingers, to holding a penis
when Iâ€™m in the shower, my hands have to scour
a lathered up wang and with balls

when my bits get tangled my hands go down my pants

just moving and grabbing my big sweaty package
of course Iâ€™m forgetting, the voluntary touching
that I do when Iâ€™m lonely or just bored

Iâ€™ve touched girlâ€™s bits
but in comparison not a lot
Iâ€™d say twelve times a day
my hands are touching cock

Iâ€™m just trying to make sense of it all
coz I am heterosexual

the genitalia Iâ€™ve seen is
male skewed
the only way to fix this is to
see more ladiesâ€™ nude

Iâ€™m not saying Iâ€™m right or wrong but I
hope this does explain
why Iâ€™m staring at you hiding
in this female changeâ€¦room

itâ€™s not my fault
look miss i need this canâ€™t you tell
sorry to interrupt but
Iâ€™m hiding as well...(HI!)

this will aid to set us straight
we really need your help
and yes we see the irony that
we're touching ourselves

we're just trying to make sense of it all
can we see your boobies once more?
no need to get angry at all
so the police really need to be called
coz we're 93 percent sure

that we are heterosexual
