

Man Has to Struggle

Van Morrison

Man makes his money and they call him rich
Deep down inside he knows that life's still a bitch
Man tries to keep things but they're taken away
Man has to struggle all the live long day
Man has to sweat and toil his life filled with trouble
Man got to step and fetch it on the double
Man has to work so hard to make it all pay
Man has to struggle all the live long day
Man keeps on moving 'cause he can t keep still
Man has to set his goals and climb up the hill
Man sees the mountains and the deep blue sky
Man has to struggle till the day that he die Well yes siree Bob them there's the breaks
That's how it is my friend don't make no mistake Man has to take some action all of the time
Man by his nature's never satisfied
Man just can't vegetate no matter what they say
Man has to make it all the live long day
Man has to create karma that s the way that it is
Man has to keep on going way beyond his will
Man has to keep on being 'cause there s nothing else
And man just always has to go for himself
Take all the gurus when they meditate
Transcend the mundane into some altered state
You just might get there, but you'll have to pay
Man's got to struggle all the live tong day Well yes siree now Bob them there's the breaks
That s how it is my friend don't make no mistake
