Save Us

Feeder

Face against the ground
Torn, but you can stand
Your will is strong, but you have now
I know you can save usFaith is on your side
Fears you can't deny
It's burned a hole, right through your soul
But I know you can save us
Save us nowDon't say goodbye
I know you can save us
Don't wave goodbye
But nothing can break us
Don't say goodbye
I know you can save us
You can bring us back againBorn to be as one
Turn to face the sun
Your will is strong, but you have now
I know you can save us
Save us nowDon't say goodbye
I know you can save us
Don't wave goodbye
But nothing can break us
Don't say goodbye
I know you can save us
You can bring us back again
You can bring us back againFace against the ground
Torn, but you can stand
Your will is strong, but you have now
I know you can save usDon't say goodbye
I know you can save us
Don't wave goodbye
But nothing can break us
Don't say goodbye
I know you can save us
You can bring us back againDon't say goodbye
I know you can save us
Don't wave goodbye
But nothing can break us
Don't say goodbye
I know you can save us

You can bring us back again
You can bring us back again
