Heartbreaking Music

Lagwagon

I've already come to terms
With bridges I have burned
We all make mistakesWe keep preparing for the worst
So it won't seem adverse
Just like we rehearsedClick, two, three, heartbreaking music
So close to loss we use itHow much honesty's healthy
Say what's on your mind
The only way to beDrugs are only for dessert
Do your homework first
We don't administer the cure for that thirst'Cause it's always been heartbreaking music
So close to death we use it
KillingWriting this over and over
It'll never mendI am the jest malignant cell
Playwright to your hell
I think I knew you wellBut I wish I were as smart as you
I could I have changed your mind
Would have, should have, the question 'til I dieBut it's always been heartbreaking music
So close to life we abuse it
Killing
