

Decisions

Brandy

Take a second
think about it
ask yourself
Is it really worth it
(really worth it) You Got a Good man
On your side And
you know that
he don't deserve it
(don't deserve it) Look at how he
looking at you, You
know you wanna
Get it Crackin'
(Get it Crackin') And plus how can
A man get hurt
If he don't even
know that it happened
(that it happened) It's Got me Like (oh..)
Cause I wanna do right
But she looks so good tonight And it's got me singing (oh..)
I wanna Get it on
But I know that it's wrong Decisions, Decisions.
I Said Decisions, Decisions (3x)
Decisions, Decisions. What Would you
Want her to do
If she was in
the same situation.
(Situation) To think of her
Relationship
And walk away
Ignoring Temptation.
(Temptation) She Ain't that
Kind of Girl
So that ain't even
How it would go
(She's never put herself in that place) Said you're a man, So
go ahead and be a man
Just make sure
She never knows
(And everything will be okay) It's Got me singing (oh..)

Cause I wanna do right
But she looks so good tonight And it's got me singing (oh..)
I wanna Get it on
But I know that it's wrong Decisions, Decisions.
I Said Decisions, Decisions (3x)
Decisions, Decisions.
(so what you gonna do?) You know you gotta make a move
Are you gonna do right?
Or get down for the night? Know you gotta choose
Said you know
You love your girl And you know she loves you too
But what you gotta ask yourself
"Is it worth losin her to you?" It's Got me singin (oh..)
Cause I wanna do right
But she looks so good tonight And it's got me singing (oh..)
I wanna Get it on
But I know that it's wrong Decisions, Decisions.
I Said Decisions, Decisions (3x)
Decisions, Decisions.
