I Don't Want Your Man

Lovher

I don't know what he told you but me and him are cool
He told me that you got mad and acted like a fool
Why you playing on my cell phone
I call you back and say you're not home
You block your number and then you call back
C'mon miss, I ain't having that
Don't leave no messages accusing me
Questioning who your man is
Don't blame me for your misery, you got to come correct
All we do is kick it
He ain't even hit it
Girl you need to quit it
I don't want your man
All we do is kick it
He ain't even hit it
Girl you need to quit it
I don't want your man
Out of knowing him, try to understand me
No more, just friends
Tell me what's the point in tricking
Stop calling me, tripping, guessing, don't stress me
Keep it to yourself, don't test me
If you see me in the street, don't speak
Wrong dime, wrong dime
You called out the wrong dime
Get the chicken off my back and you could love me long time
C'mon girl, stop that
Chill out, lay back, let's talk about this shit's
I'm pissed
Want somebody else's man, when I get fly niggas from band
Got me stuttering 'cause I don't want your man
All we do is kick it

He ain't even hit it
Girl you need to quit it
I don't want your man
All we do is kick it
He ain't even hit it
Girl you need to quit it

I don't want your man
I don't need no insecurities
I don't need this shit in my life
I don't want your man
Break it down
Nigga got me in the mood
Let's hope our knees got bruised
That's how we do (yeah!)
Hair pulled to my backside
About 2 1/2 hour ride, that's just when I'm beginning
Girl, I'm just kidding
All we do is kick it
He ain't even hit it
Girl you need to quit it
I don't want your man
All we do is kick it
He ain't even hit it
Girl you need to quit it
I don't want your man
Girl, stop playing on my phone
Girl, Girl, leave me alone
Won't you understand, nothing has changed
Friends still remain
Girl, please leave me alone
