

Love Carries On

Melee

If I had more time with you
Things would surely change
I'd make your problems fade
If fate were different
You'd be here
Just know the past is through
Why can't you break away?
I first fell over, falling over you
On broken glass some things
Aren't made to last
Street signs that we passed
She said you're driving way
Too slow but I don't mind
Know your love carries on
And follows you back to my heart
Know your love carries on
And follows you back to me
Even though, the ends unknown
We can make this unpaved road our home
Your ivory arm with dark tattoo
A painful memory that never fades away
Now blue skies are changing into gray
This cynic's lullaby reflects the last refrain
Yeah, she said, her father never really cared

While growing up he always disappeared
Poor angel eyes, you're scared
We never stood a chance
But girl we took the dare
Know your love carries on
And follows you back to my heart
Know your love carries on
And follows you back to me
Even though the ends unknown
We can make this unpaved road our home
No, you're keeping me away
But it's okay, it's okay
We all tend to break the rules
We all make mistakes

It's not too late to get it right
(Know your love carries on)
Know your love carries on
(Know your love carries on)
Know your love carries on
(Know your love carries on)
Yeah, your love carries on
(Know your love carries on)
Know your love carries
Know your love carries on
