

Burglar Soup

The Apex Theory

who's in a surround
can assorted luck in a dream
who's in us around
in that sky is something watching enough, enough, enough, enough, you said
give in enjoy (but what if it's)
enough, enough, enough, enough, you said
take a good look
it's your time to wrap your head around it
to grow, to grow out who's in a surround
is that something moving in me
who's in us surround
thousand murders cutting up me enough, enough, enough, enough, you said
give in enjoy (but what if it's)
enough, enough, enough, enough, you said
take a good look
it's your time to wrap your head around it
to grow, to grow leave me
I'm being surrounded by being alone
