

Rabid Animal

Lake Street Dive

Another night wasted
In my parents' basement
I could almost taste it
Why did I ever go back home? All night
You got me runnin' like a rabid animal like a dog
With no fight
How will I ever find you in the darkness
With no light Another night wasted
In my parents' basement
I don't know why I didn't chase it
When I was right on its tail All night
You got me runnin' like a rabid animal like a dog
With no fight
How will I ever find you (find you) in the darkness
With no light You got me runnin' like a rabid animal like a dog
With no fight
How will I ever find you (find you) in the darkness
With no light Well now, you got me runnin' like a rabid animal like a dog
With no fight
How will I ever find you (find you) in the darkness
With no light yeah You got me runnin' like a rabid animal like a dog
With no fight
How will I ever find you (find you) in the darkness
With no light
