

# Sunshine Sunshine

[James Taylor](#)

Sounds of laughter here comes sunshine  
Smiling faces all around  
They possess you, bless you sunshine  
Now you can never let them down, I say sunshine  
Sunshine, sunshine is that a cloud across your smile  
Or did you dream again last night  
It's best you rest inside a while  
As blue doesn't seem to suit you right  
Things ain't what they used to be  
I say pain and rain and misery  
Illness in the family  
And sunshine means a lot to me, I say sunshine  
But could it be sunshine is drifting with midnight  
And lonely when everyone's gone  
Blue crystal spirits and gardens in moonlight  
Leave weak alone and bleak all quiet and gray by dawn  
Sunshine sunshine rising to late to chase the cold  
And failing to change the frost to dew  
She's trading her mood of yellow gold  
For frost bitten shades of silver, blue  
Friends and lovers past and gone Lord  
And no one waiting further on  
I'm running short of things to be  
And sunshine means quite a lot to me  
I say sunshine, woah sunshine
