

# Country Road

[Christina Lindberg](#)

Baby only kind you take up town  
I am just a country road  
That you keep turnin' down  
If you ever hit a dead end street  
If it's love that you're looking for  
You can always turn around  
And beat a path right to my door  
Do I have to draw you a map  
You seem to know your way around  
So when you're tired of spinnin' your wheels  
Baby, we can go to town  
You're livin' in the fast lane  
I guess, I'm just too slow  
I never wore silk or fancy furs  
Just plain ole calico  
I'll never be a fast lane lover  
And they're the only kind you take up town  
I am just a country road  
That you keep turnin' down  
I'll never be a fast lane lover  
And they're the only kind you take up town  
I am just a country road  
That you keep turnin' down  
I am just a country road  
That you keep turnin' down  
You're livin' in the fast lane  
I guess, I'm just too slow  
I never wore silk or fancy furs  
Just plain ole calico  
I'll never be a fast lane lover  
And they're the only kind you take up town  
I am just a country road
