

Princess of the Dawn

Accept

There's rain on the mountain
 A white frost on the moors
 It's an epoch of eternity
 Waters touch the holy shoreIt's a land of mystery
 The world of unseen eyes
 You can feel the shadow of a princess
 She waits for you insideThe guardians of God play the pawns
 Beg for mercy, hail the queen
 Princess of the DawnIn the war of the dragons
 Young blood ran it's course
 They fell to his blade
 The knight Iron HorseA forgotten priest
 Disappearing in the haze
 A chamber of vestal virgins
 Twilight is her slaveThe Wizard of Oz moved the pawns
 Life for Satan, dust to dust
 Princess of the DawnOn the day of the testament
 The seventh moon was raging fire
 Heaven cried for the sacrifice
 The midnight sun was rising higherThe Beauty and the Beast
 Lies in her royal crypt
 Her kiss is bitter sweet
 Death upon her lipsThe Holy Grail held the pawns
 Kings and bishops bow to grace
 Princess of the DawnThe guardians of God play the pawns
 Beg for mercy, hail the queen
 Princess of the DawnA new day dawns for heaven and earth
 A first sunbeam is killing the night
 Once upon a time forevermore
 The gloom with the spirit of that lady in whitePrincess, Princess, Princess of the Dawn
 Princess, Princess, Princess of the Dawn
 Princess, Princess, Princess of the Dawn
 Princess, Princess, Princess of the DawnPrincess, Princess, Princess of the Dawn
 Princess, Princess, Princess of the Dawn
 Princess, Princess, Princess of the Dawn
 Princess, Princess, Princess of the DawnPrincess, Princess, Princess of the Dawn
 Princess, Princess, Princess of the Dawn
 Princess, Princess, Princess of the Dawn
