

Stuck in the Middle

The Elwins

Take me off you test now
You know I passed with a 91
You're making a mistake how
Do you do this and call it fun
And if I had the chump change
I'd pay you off off and call this done
But there's something more here
and I know Making up a story
I don't believe
Did you get my message
I tried to get you with my family You're crashing out my head
You're taking off my head And it's stuck, stuck in the ground
Stuck in the middle
Oh, and it's not nice
to define your way through a riddle
Yeah you're stuck, stuck in the ground
Stuck in the middle
Oh, and it's not nice
to define your way through a riddle Well I gotta go
And point the wheel where it needs to be
But how am I going to get there
If I'm travelling to WeekiWachee You're crashing out my head
You're taking off my head And it's stuck, stuck in the ground
Stuck in the middle
Oh, and it's not nice
to define your way through a riddle
Yeah you're stuck, stuck in the ground
Stuck in the middle
Oh, and it's not nice
to define your way through a riddle
Your way through a riddle
Your way through a riddle
Your way through a riddle Take it slow, you never could know
What's down the road
