I Want You

Jody Watley

When the night falls surrounds us gently
With a sexy atmosphere
Well, light some candles, play some music
Ooh, I just want to feel that intimacy, yeahNobody but you and I
Lovin' and kissin' so passionately
Sharin' our feelings, just caress my body
Ooh baby, let me whisper in your earI want your love
(I want you)
I'll have your love
(I got to have you)I need your love
(I need your love)
I want your love
(Yeah)I want your love
(I want you)
I'll have your love
(I got to have you)
I need your love
(I need your love)Turn the lights down low and baby, come close
I wanna give it to you like you never had it before
Unplug the phone, don't disturb this groove
I just wanna concentrate on you, ohNobody but you and I
Just lovin' and kissin' so passionately, oh
Sharin' our feelings, just caress my body
Ooh baby, let me whisper in your earI want your love
(I want you)
I'll have your love
(I got to have you)I need your love
(I need your love)
I want your love
(Yeah)I want your love
(I want you)
I'll have your love
(I got to have you)
I need your love
(I need your love)I want your love
(I want you)
I'll have your love
(I got to have you)I need your love
(I need your love)

I want your love
(Yeah)I want your love
(I want you)

(I got to have you)
I need your love
(I need your love)I want your love
