

# You Give Me A Rush

## Jagged Edge

Girl tonight  
We gonna stay in doors  
Tell me what you're drinking  
I'm a run to the store.  
That's right.  
You wanting more and more  
But I won't stop til you can't do it no more.  
That's right,  
And you give me a rush.  
Yeah, I'm right and you give me a rush.  
You got me right  
And you give me a rush.  
Yeah, I'm right and you give me a rush.  
Better than anybody  
And better than drinking alcohol.  
Better than my seven [?]  
The finest green I like to smoke.  
Matter of fact, when I'm with her  
That's what I feel when I'm on dope (yeaaaaaah)  
I know that she's my habit now  
So I'm an addict  
I stay off in the attic  
You leave me girl, that's all I could do.  
Leave me girl, that's all I could do.  
Girl tonight  
We gonna stay in doors  
Tell me what you're drinking  
I'm a run to the store.  
That's right.  
You wanting more and more  
But I won't stop til you can't do it no more.  
That's right,  
And you give me a rush.  
Yeah, I'm right and you give me a rush.  
You got me right  
And you give me a rush.  
Yeah, I'm right and you give me a rush.  
120 in the Benz  
Like a pimp no roof.

Racing to the stove for some goose 80 proof.

Plus I got some shrimp on the stove, all truth.  
I could tell you that I'm playing, if I do: it ain't true.

I'm Jones like Pooky like Anancy like Lou.  
But in secret, you know I like your birthday suit.  
Maybe, a lace thong and them Gucci leather boots.

If loving you is wrong  
I'll line up while they shoot.

Girl tonight  
We gonna stay in doors  
Tell me what you're drinking  
I'm a run to the store.

That's right.  
You wanting more and more  
But I won't stop til you can't do it no more.

That's right,  
And you give me a rush (yeah)  
Yeah, I'm right and you give me a rush.

You got me right  
And you give me a rush.  
Yeah, I'm right and you give me a rush.  
Like jumping off a cliff and falling from one hundred ft  
The parachute snaps and still landing on your feet.  
It's a bit much, picture what I'm saying that's a rush.

And everyone's having little feeling,  
When your palm gets sweaty and your tongue gets tied.  
And you can't think steady, that's a rush.

Like doing 105 in a 55,  
Ooh what a vibe.

Girl tonight  
We gonna stay in doors  
Tell me what you're drinking  
I'm a run to the store.

That's right.  
You wanting more and more  
But I won't stop til you can't do it no more.

That's right,  
And you give me a rush (yeah)  
I'm right and you give me a rush.

You got me right  
And you give me a rush.  
Yeah, I'm right and you give me a rush.
