We Want Fun

Andrew W.K.

Well, if we had our own willing way to go
You'd be doing things and hoping there's antidote
When we saw that we'd give you it all
We're thinkin' you're a lady, yankin' our chains an' allWe can get a try, we can get a try with a 1, 2, 3
You'd be startin' to drown
We can clear the floor, we'd give you a bangin'
Ladies and gentlemen do it togetherWe want you to give us something more
You have to lay down on us
We want us to get up off the floor
Don't ever lay down on itWe don't want to ever live or die
We gotta get out we can make it today
You gotta hey, hey, hey, hey, make it todayWe want fun and you better believe it
We want fun 'cos we desperately need it
We want fun, but you don't understand
You gotta hey, hey, hey, hey, make me a manWe want fun and you better believe it
We want fun either take it, or leave it
We want fun, and we're gonna get pasted
We want to have fun, and we want to get wastedWhen we had the time of our life
We'd hook up with the gang and take you through
Then you'd be in the back of our van
Mum and dad started gettin' real badWe want you to give us something more
You have to lay down on us
We want us to get up off the floor
Don't ever lay down on itWe don't want to ever live or die
We gotta get out we can make it today
You gotta hey, hey, hey, hey, make it todayWe want fun and you better believe it
We want fun 'cos we desperately need it
We want fun, but you don't understand
You gotta hey, hey, hey, hey, make me a manWe want fun 'cos we medically need it
We want fun either take it, or leave it
We want fun, and we're gonna get pasted
We want to have fun, and we want to get wastedWe want pie, want pie, want fun, yeah
What do we want? What do we want?
We want fun, want pie, want fun, yeah
What do we want? What do we want?We want fun, want pie, want pie, yeah
What do we want? We know what we want
We want pie, want pie, want pie
We want to have fun, and we want to get wasted
