

# Flight

## Climax Blues Band

You

Eh why you looking at me  
You got something to hide  
I got something to see  
Stay  
Right where you stand  
And then when I say go  
You gonna take what you can  
Look at the things you've done  
At the things you've done  
At the things that you've done

We're on fire

Stand and fight

We could be in flight

You

You mean nothing to me  
Can I feed you a lie  
For a pledge to be free

Take

And then make what you can  
Quit choosing a side  
Stay right where you stand  
Wait before you let it go on  
Before you let it go on  
Before you let it go on

We're on fire

Stand and fight

We could be in flight

We'll burn it down...

We're on fire

Stand and fight

We could be in flight

Lost and tired

Read our rights

We could be in flight
