All Year Round

Paul Weller

Our eyes meet across the floor
We don't have to say much more
Let's take a chance on it
Say you'll be mine till springWe kiss on crowded streets
We kiss every time we meet
Who knows how it will go
Stay here till summer comesI love you more each day God sends
Love you because you are my friend
Don't say our luck has blown
Stay here till autumn goesLet's make love in the light
Sleep together every night
Let's stay together, see the winter out
