

All Year Round

[Paul Weller](#)

Our eyes meet across the floor
We don't have to say much more
Let's take a chance on it
Say you'll be mine till spring We kiss on crowded streets
We kiss every time we meet
Who knows how it will go
Stay here till summer comes I love you more each day God sends
Love you because you are my friend
Don't say our luck has blown
Stay here till autumn goes Let's make love in the light
Sleep together every night
Let's stay together, see the winter out
