

Put a Little Love In My Soul

Stee Downes

I made commitments to the one, I be lovin' her sun
You could see it on her and I wanted to see lately
The way that she feels maybe, somethin' is the matter when
You put yourself on the line, while your givin' all you got
You've been given it to the one, nothin' better for me baby
Tell me how you see lately, somethin' is the matter when
You put your feelings aside, cause you be thinkin' you can hide
And your running from the truth, tell me what you see baby
Say that you believe in me, never ever happens when
Ain't a worse of a lie, it wont happen till you try
If you it to be you'll be happy with me... Baby,
Wont it ever come around, we can never turn it down,
I know we can make it count

Put a little love in my soul, show me how i wanna feel baby
I can make the payments on time
I can sell my soul for real
Put a little love in my soul, show me how I wanna feel baby
I can make the changes on time
I could sell my soul for real

Lovin' like I've been missin', I feel my soul become so distant
And I can never fool myself, cause I know there's somethin' else
Changin' me inside
Feelin' like I've been wasted, I told my heart to keep on changing
And now I'm gonna prove myself cause I and I know its gonna help
Cause your be my side

Woh oh put a little love in my soul, show me how I wanna feel baby
I can make the payments on time
I can sell my soul for real
Woh oh put a little love in my soul, show me how i wanna feel baby
I can make the changes on time
I could sell my soul for real
