Nepal

Mikkel Metal

If you're gonna break his heart could you break it gently please cause he is all you've got you're all he needs and
If you're going to throw it all then
throw it to the watertell me tell meee
if you feel it allllYou never felt that much or
you never felt that love
so when you turn around someone lying on the ground you
pick them up just a litte bit so you could speed
in the face of what he gave you
oh what he made you
and if you're going to throw it all then throw it to the watertell me tell meeee if you feel it allll
feel it all
and you throw it to the waaater
feel it aallll feeel it allIf you're going to break his heart could gently please cause he is all you've got you're all he needs
if you're going to throw it all then throw it to the water tell me teeelll me if you
feeel it alll feel it all X2
