Crazy Summer Nights

Hope Partlow

Layin' down late at night in the street
Watchin' the traffic lights turn
Yeah, that's a big thing in my little town
Where all you got is time to burn
It's you and me and the way we touch
We never really had to wear it that much
And I sure do love these crazy summer nights
When you all get together
Days that I remember all my life
Yeah, they seem to last forever
You know they make me feel alright
I sure do love these crazy summer nights
Everybody's hangin' out at the car wash
Yeah it's just another Saturday night
Mandy's sittin' up on the hood of Jake's car
Watchin' Nora dance in the headlights
And I say
These'll be the times we miss
Donna turns to me and says
Why can't it stay like this
Yeah, I sure do love these crazy summer nights
When you all get together
Days that I remember all my life

Yeah, they seem to last forever
You know they make me feel alright
I sure do love these crazy summer nights
They say, you can't hold on to 16 forever
These are the days that we will remember
C'mon now everybody sing together
These are the days that we will remember
These'll be the times we miss
I wish that it could stay like this
'Cause I sure do love these crazy summer nights
When we all get together
Days that I remember all my life
They seem to last forever
Sure do love these crazy summer nights
When we all get together

Days that I remember all my life
Yeah, they seem to last forever
You know they make me feel alright
Sure love these crazy summer nights
Summer nights
Summer nights
