

# Amen

## Sepultura

Forgive me Father, forgive me God  
I know I've sinned with no remorse  
Apocalyptic visions went through my head  
Here today gone tomorrow, it's all insane I'm feeling sick, I'm feeling numb  
The storm will come  
In the name of God I'm the chosen one Terror raids the land  
To ashes we'll be sent  
In the name of God lives cast away Martyrdom of myself  
Armageddon comes  
In the name of God not one more dead Fire blasting, cutting edge  
Children burn in flames  
In the name of God we're going insane Die, die, die, die  
Die, die, die, die Let us die  
You don't realize  
This is the time  
God's sacrifice Leaving behind  
Lessons in hate  
In the name of God we're all dead Burn
