

2000 Watts

Michael Jackson

Bass Note,treble, stereo control, how low you go
Just enough to make your juices flow
Press play, don't stop, rotate, too hot
You feel I'm real
I'm everything you need, so tell me what's the deal

2000 Watts, 8 ohms, 200 volts, real strong
Too much of that, fuse blown
Be careful what you say don't overload
2000 Watts, 8 ohms, 200 volts, real strong
Too much of that, fuse blown

Be careful what you say don't overload
3D, high speed, feedback, Dolby $\frac{1}{2}$
Release two or three, when I reach I can go 'til I hit my peak Compact
steelo, chico, D-Lo, highpost lady Shorty really wanna be there for me

2000 Watts, 8 ohms, 200 volts, real strong
Too much of that, fuse blown
Be careful what you say don't overload
2000 Watts, 8 ohms, 200 volts, real strong
Too much of that, fuse blown.
