Girls

Santigold

Run around, around, around, around the block
Run around, around and bring, bring
Run around, around, around, around the block
Run around, around and bring, bring me
Run around, around, around, around the block
Run around, around and bring, bring
Run around, around, around, around the block
Run around, around and bring, bringif you get me going count me in i wanna play
Meet me on the phone, come get me on the way
Got you down town since some people and parlay
If you got no boys, might be your lucky dayGirls, girls, girls, girls, girls
Who be the queen of the ball
I roll true, let it shock all of yall
I know shit like a fly on the wall
So legit, I don't quit when I fall
I be there first at where that action is
Don't matter who or what, say where it's at and when it is
Right now Im slippin for my waitin this is how I live
In any instance, we are young, we get away with it
In any instance, we are young, we get away with it
We are girls, girls, girls, girls, girls, girls
We are girls, girls, girls, girls, girls, girlsHere we are, all tryina make it ends meet
Got no cash, got no money but we runnin the streets
I can call my shots, telling what is what
Can it be obviously Im fucked up
Got charm that counts but I ain't easy
If you ain't reckless then you ain't with me
In the meantime keep your illusion short
Where I sit you play dumb is a sport
I'm the rack competition to my enemies
Im the trouble army, on my way to see you
Im the best who can make a mess of something sweet
Im a fighter so I know that I wont retreat
Im a stunner if you wanna for a good time call
And the cat's meow, ain't afraid of y'all
Im a winner though I am not afraid of defeat
all my girls make up an army knock em dead off their feetGirls, girls, girls, girls, girls
Girls, girls, girls, girls, girls
Run around, around, around, around the block

Run around, around and bring, bring
Run around, around, around, around the block
Run around, around and bring, bring
Run around, around, around, around the block
Run around, around and bring, bring
Run around, around, around, around the block
Girls, girls, girls, girls, girls
Girls, girls, girls, girls, girls.
