Better Off Dead

Cirith Ungol

I'm tired of beeing the odd man out
I speak with a whisper and feel with a shout
I feel out of tune, I feel out of key
I feel like I'm missing a part of meI've got a lot on my head
And my condition's read
I think I'm better off dead
SometimesSome people say that lightning never strikes twice
But I've been hit more than once in my life
I've been taken in so many times
A thousaint promises, a thousaint liesI've got a lot on my head
And my condition's read
I think I'm better off dead
Sometimes, sometimesSometimes I take a look at the world
And sometimes I take a look at the girls
I'm just a spectator, I don't get involved
I've got too many problems of my own to solveI've got a lot on my head
And my condition's read
I think I'm better off dead
Sometimes
I've got a lot on my head
And my condition's read
I think I'm better off dead
Sometimes, sometimes
