Water Into Wine

Chris August

[Verse]
Ive been runnin round in circles, but I cant do this on my own
To be so far away from perfect, thats all Ive ever known
Its not like I aint been tryin, cause Ive been trying every door
And when theyd open Id be lyin on the floor cause Im always falling short[Chorus]
Ive been lost chasing dreams of yesterday
Found my heart always leading me astray
So take these broken wings and teach them to fly
Cause Youre changing me from water into wine[Verse]
I guess I thought that itd be easy cause people always speak of peace
And now Im picking up the pieces left of me
Cause I can see that it was You breaking me[Chorus]
Ive been lost chasing dreams of yesterday
Found my heart always leading me astray
So take these broken wings and teach them to fly
Cause Youre changing me from water into wine
From water into wine[Bridge]
I knew about the story revealing all Your glory
How You can take the nothing and turn it into something
But now I see my own life changing before my eyes
You saw me at my worst and fulfilled my thirst like water into wine[Chorus]
Ive been lost chasing dreams of yesterday
Found my heart always leading me astray
So take these broken wings and teach them to fly
Cause Youre changing me from water into wine
From water into wine
