

Turn Around (Alister Johnston Remix)

Sola Rosa

Papa never said anything about this
Your mama never listen to a word that you say
Simple little words just to make another chain so lay dead in my grave
Fall in the gaps and I can't get up
Pulling up the ropes and it gets so tough
Strategy thoughts till I'm on the top and I won't cry for help
The lies, the truth to ease the pain, you know you
got to say a thing
Child force to lose or gain
It's time they recognise your name
Simple word is all I say
No more lies and arguments
Turn around, don't you come back this way
I hold my grounds, never take your judgement
Turn around, don't you come back this way
I hold my grounds, never take your judgement
So why you gotta lie for
Why you gotta speak for
Why you wanna tell all the things that you know we just don't agree on
Oh my bad, did I put you down so sad
And so you blame myself you mad
Do I care oh well, get off the bus and ride yourself
Now I'ma turn it around, get an amount, settle me out, figure
it out
Speak your mind, define this
You gotta tell me now so we can figure it out
Let me know what you be thinking about
Where do you go, where do you go, where do you go, na na na
Turn around, don't you come back this way
I hold my grounds, never take your judgement
Turn around, don't you come back this way
I hold my grounds, never take your judgement
Turn around, don't you come back this way
I hold my grounds, never take your judgement
Turn around, don't you come back this way
I hold my grounds, never take your judgement
