Let's Take A Walk

Raphael Saadiq

This place is crowded, don't know 'bout you
I need some sex, some sex with you 'cause you're on my mind
I can feel your sweat, your body's wet
And I need some help, girl you know what we need to do
Girl, let's take a walk outside
Let's take a walk outside
Let's talk a walk outside
I'm ready to go, go grab your coat
It's hard to hope, I'm dancing, let's go
The mood is right, the scene is bright
Help, don't you fight, I know the time is right
Girl, my lips is what I need you to have
Girl, let's take a walk outside
Let's take a walk outside
Girl, let's talk a walk outside
Girl, let's talk a walk
Let's take a walk, baby
Let's take a walk, baby
Let's take a walk
Listen now, don't you know
Looking happy anywhere
I know it's colder but I don't care
Let's talk a walk outside
Let's talk a walk outside
Not in my car, outside
You can scream my name
And you'd be glad you came
Let's take a walk
Walk, walk, walk, walk
A walk, walk, walk, walk
Baby, a walk, walk
Walk, walk, walk
A walk, walk, walk, walk
Baby, a walk, walk
