

100 Dollar Bills

I Can Make a Mess Like Nobody's Business

I live my life like a hundred dollar bill
To give to all my friends
Or anyone at all I guess that's my way of hoping, oh yeah
That I won't get left alone A la da da
La-da da da
La-da da da
La-da da da And all my luck has given me this chance
It's my uncertainties that brought me to this point Oh I know I'm gonna blow it, oh yeah
So I won't care at all La da da da
La-da da da
La-da da da
La-da da da I live my life like a hundred dollar bill
To give to anyone
But no one really cares I guess I've been mistakin'
The green of the grass with the color of my hands
