Morning

Jaheim

Morning
Morning

She sippin on a drink, that's when I start to think
Look at that body and gotta go so hard on the paint
Pardon me miss thing, diggin your shoe game
What's your name, never mind, tell me all about it in the (morning)
Open the blinds, I could cook you breakfast
Slip in a quickie one more time before we exit
It's not a spa see, wanna take a ride with me?
What's your name, never mind, tell me all about it in the (morning)

Girl can you hang? Take your time, go slow,
Make love till the middle of the (morning)
I know you're wondering if I'm the type to quick,
Heat the sheets and get you out by the (morning)

Do you look fresh, air brushed magazine?
I'm tryin' to see if you pretty in the (morning)
Girl can you keep me callin',
Coming back for just another, another, another

We going non-stop, that's the alarm clock,
I hit the snooze, reached for my shoes, before my socks
Late for my interview, getting it in with you
Shadows on the wall, candle lit, burning it and oh
I got your body on my mind and I'm tryin' to
Focused but it's hopeless, baby you're so freakin' fine
We're texting freaky messages and countin' down the time,
Until we find ourselves, together making love until the (morning)

Girl can you hang?
Take your time, go slow, make love to middle of the (morning)
I know you're wondering if I'm the type to quick heat the sheets and get you out by the (morning)

Do you look fresh, air brushed magazine?
I'm tryin' to see if you pretty in the (morning)
Girl can you keep me callin',
Coming back for just another, another, another

I ain't tryin to come up, till the sun up, get gun up
Stay one up, on you one no keyboard
Touching on you, lotion I'll be rubbing on you
Get you get you feelin good, keep it harder than some wood,
Get gensing you know I could
Get it in and tell me when you getting there so I can share
The same smile on my face, when we arrive at the same place
Same time, you'll get yours, I'll get mine,
All before the crack of dawn
Do it to the morning

Girl can you hang?
Take your time, go slow, make love to middle of the (morning)
I know you're wondering if I'm the type to quick heat the sheets and get you out by the (morning)

Do you look fresh, air brushed magazine?
I'm tryin' to see if you pretty in the (morning)
Girl can you keep me callin',
Coming back for just another, another, another

Let's make love all night until the morning
Breakfast in bed then get you wet in the morning
Then we'll go shopping hit the mall in the morning
And wait for the world oh yeah, maybe lady
We'll mate and get married in the morning
Then I'll get pregnant, nine months and have a baby in the morning
Even when cussin' and fussin' and fightin, you just kissing me, hugging me,
Girl then make love in the morning girl

Girl can you hang?
Take your time, go slow, make love to middle of the
I know you're wondering if I'm the type you quick heat the sheets and get you out by the

Do you look fresh, air brushed magazine?
I'm tryin' to see if you pretty in the (morning)
Girl can you keep me callin',
Coming back for just another, another, another
