

# Rooting For My Baby

Miley Cyrus

When you wake in the morning and I can tell it's not your best side

No good morning today

I stay to the right if I know you're mad

You're on the left side, stay out of your way Just hold on

In a minute it'll be over and gone

Gone gone gone gone I know, I know

That you go through a lot

I know, I know

That the pressure makes you hot

See I know, I know

'Cause you still know what you got

I know, I know yea Ooh ooh

I'm rootin' for my baby

Ooh ooh

Yea If you were here

I'd get you a beer and I would hang your clothes

You wanna behold

So you roll up your sleeves and you sweat and breathe

This is a long road, so much more to go Just hold on

In a minute it'll be over and gone

Gone gone gone gone I know, I know

That you go through a lot

I know, I know

That the pressure makes you high

See I know, I know

'Cause you still know what you got

I know, I know yea Ooh ooh

I'm rootin' for my baby

Ooh ooh

Yea See I've been dreamcatchin'

I thought that this is everlasting

Life with you means love and laughter

Happily ever after So hold on

In a minute it'll be over and gone

Gone gone gone gone I know, I know

That you go through a lot

I know, I know

That the pressure makes you high

See I know, I know

'Cause you still know what you got  
I know, I know yeaOoh ooh  
I'm rootin' for my baby  
Ooh ooh  
YeaI'm rootin' for you, baby  
Yea  
I'm rootin' for my baby  
Yea  
But you go through a lot  
The pressure makes you high  
You still know what you got  
Yea
