New Star

Ambient Generation

Aaa
Baby your deal is a real just like lightnin' streakin' on
Heaven still is a state of mind, where did we go wrong?
What happened to those old convictions?
Went up in smoke
Baby, while your back breaks slowly
By the skin of your teeth
You'll be under their thumb
Movin' from this state of friction
We all got stars in our eyes
But you know by now your one restriction
Is at the edge of the sky
Keep shinin' like a new star
Shinin' like a new star
Baby we better start
'Cause baby we're alive
(New star)
Shadows are still when the will has no strength left to carry on
You're flat on your back with your heart attack
Where the hell have you gone?
The pressure and pain, all the fire and ice
When you're playing a game, with the rats and the mice
But while your back breaks slowly
By the skin of your teeth
You'll be under their thumb
New star
Shinin' like a new star
Baby we better start
'Cause baby we're alive
(New star)
New star
Shinin' like a new star
Baby we better start
'Cause baby we're alive

(New star, new)
'Cause baby we're alive
Dreamin' so clever in all kinds of weather
Where did you mention that you buried your treasure?

After the pleasure of givin' is gone
We'll be as one under the same sun
Sun
Shinin' like a new star
(Aaa)
Shinin' like a new star
(Aaa)
Shinin' like a new star
(Aaa)
Shinin' like a new star
New star
(Shining like a new star)
Shining like a new star)
(Shining like a new star)
Baby we better start
(Shining like a new star)
'Cause baby we're alive
(Shining like a new star)
New star
(Shining like a new star)
Shining like a new star)
(Shining like a new star)
Baby we better start
(Shining like a new star)
'Cause baby we're alive
(Shining like a new star)
'Cause baby we're alive
'Cause baby we're alive
'Cause baby we're alive
...
