Generation

Army of Anyone

They give what they give ya
You get what you getThey take what they're taking
No matter what you saidOr maybe, it's just apathy
Or maybe, we don't question itSo helpless in this mess
The fault of all of us, yeah
Contagious, complacent kiss, goodbyeGeneration of fear and whateverLife in the bullseye, they won't ignore
Life in the big lie, we won't absolveOr maybe, it's just lethargy
Or maybe, we should question itSo helpless in this mess
The fault of all of us, yeah
Contagious, complacent kiss, goodbyeGeneration of fear and whatever
Generation of fear and whatever, yeahGeneration of fear and whatever
Generation of fear and whatever
