

I Don't Wanna Be Lonely

Brown Boy

[speaking]

baby i is you, and i, i don't wanna be lonely

(Girl)

i don't wanna be lonely I wish you were here so you can hold me turn the radio on and play them oldies
reminisce on the love you showed me.

(boy) I'm just sitting in my room starring at the wall reminisce baby while I'm waiting for your call i think back
to the day to the day we first met now that I'm away it's your love that i miss, girl I'm going crazy cause I'm all
alone you aint gotta worry cause I'll be back home and even though I'm gone I'm still your distant lover your
always on my thoughts just like my mother, i don't know what i would do without you everything i do revolves
around you, you my star in the sky the tear from my eye, promise me you'll never leave my side.

(Girl) (2x)

I don't wanna be lonely i wish you were here so you can hold me turn the radio on and play them oldies
reminisce on the love you showed me.

(boy)

I turn the radio on i can't believe it girl they're playing our song (I wanna make it with you) it reminds me of
the things we've been through all the good and Bad. the cry's and the laugh's if we put our hearts together i
know it would last, listen to me girl ,you gotta stay strong i promise you baby I'll be back in your arms to
whisper sweet nothings all through the night , It's like a dream come true when I'm next to you if you ever left
me girl I'll be sad and blue you my one and only don't ever leave me lonely.

(girl) (2x)

I don't wanna be lonely i wish you were here so you can hold me turn the radio on and play them oldies
reminisce on the love you showed me...

sitting in my room crying for you (It's gonna be o.k baby)

(boy)

Baby dry your eyes you aint gotta cry I'll be your superman till the day i die. I put it on my life we will never be
apart I'm gone for a while but you still in my heart so when you get lonely just close your eyes imagine pretty
Mamie that I'm by your side and think of all the memories of you and me together forever till eternity.

(girl) (2x)

I dont wanna be lonely i wish you were here so you can hold me turn the radio on and play them oldies
reminisce on the love you showed me.
