How Much I Feel

Jumbo Train

We could go walking through the sand
We could do it hand in hand
Oh this life would be so grand
If you could be here with me
And complete this symphony
Skip through this life so happilyBut you'll never know how I feel
Never know, just how much I feelOh I knew it from day one
One look at you it had begun
Those bricks that hit me weighed a ton
Could not know this back then
When I would see you again
I just did not know whenBut you'll never know how I feel
Never know, just how much I feelYes I shoot for the stars
If I miss I might hit Mars
My voice heard through these guitars
I can think of you all day
There's nothing that you can say
To make me feel a different wayBut you'll never know how I feel
Never know, just how much I feel
